Dear Mel,

Just a note to say Thank You for building and installing our Four Season Room. This room is so gorgeous that it has become the focal point of our home. Friends and family are all drawn to openness which doesn't feel like four walls around you, rather like an extension of the outdoors, protected from the elements.

Your staff were all friendly professionals who went out of their way to accommodate us, whether it be to answer our questions or just keep us informed of their schedule with our project.

We recommend your company to everyone we meet and our Four Season Room is testament to the great quality.

Thank you again,

Tom & Sandy Van Pelt
Jackson, NJ

PS: Thank you recommending the Mitsubishi Heating/Cooling system. It is a super system that regulates the room temperature within minutes.
